Henk Stallinga

- 1962 born in Amsterdam, Netherlands
1993 graduated at the Rietveld Academy in Amsterdam
founded his studio STALLINGA that same year

The concepts behind the works are often based on our awareness of the everyday world around us. This involves concepts like sense of time, sonorous and visual perception and experience of energy in the form of light, heat or movement. The observer is often captivated by the works in which every day phenomena are presented in a different context. Studio Stallinga is the organization behind the visual artist Henk Stallinga. Since 1998, the studio has been run jointly with fellow owner Annemarie Galani. Henk Stallinga lives and works in Amsterdam.
